My dear friends

I would like to let you know that it is my pleasure to support Dream Web. This international program creates understanding between young people about themselves and each other by connecting them with their dreams and teaching them about (nonviolent) communication and personal leadership. Via internet Dream Web creates unexpected contacts by matching youngsters that normally would not otherwise come in contact with each other. This occurs by combining opposite groups regarding background and culture, and individual youngster with corresponding dreams and passions. Young people are getting inspired to use their own talents with which they help each other to set a first step to realize their dreams.

I highly recommend and support this innovative program Dream Web, certainly because it stimulates people to understand each other and therefore it is a valuable contribution to a more peaceful world.

God bless you.
